The subcommittee reviewed Sections 7-9 on February 2 and the fully updated policy on February 4.

Global change: To avoid ambiguity, “liaison librarian” will be used throughout the policy. (“Library liaison” can mean either a librarian or their contact within a department.)

Section 4.3: “Prior to blocking, patrons will be notified of the pending action.” Bernd Becker will check on the viability of this. The overdue materials notice goes to both university and public patrons and has to reflect the procedures of both libraries because they share a unified system.

Section 8: Advancement of the Library Collection. This section was deleted. University Advancement is a separate organization and its policy should not be addressed in the Library Policy.

Consensus was not reached on three portions of the policy and these will be discussed and put to a vote of the full ULB when it meets on February 16. These are Sections 1.1; 1.1.2; and 7.2.2.2.

The next meeting will be with the full ULB on Monday, February 16, at 2:00 P.M.
